**RE: OPENING OF THE NOVEMBER/DECEMBER 2026 ASSESSMENT
REGISTRATION, E-PORTFOLIO IMPLEMENTATION, AND CANDIDATE DATA
UPDATE**

The TVET Curriculum Development, Assessment and Certification Council (TVET CDACC) sincerely appreciates all Assessment Centers for the invaluable support and cooperation accorded to the Council during the administration of the **July/August 2026 Assessment Series**. Your commitment to maintaining the integrity of the assessment process continues to contribute significantly to the realization of Competency-Based Education and Training (CBET) and the development of a skilled workforce for our country.

The Council is pleased to notify all Assessment Centres that the Portal has been opened for registration of candidates for the **November/December 2026 Assessment Series**. Institutions are encouraged to commence registration immediately and complete the process on or before **Friday, 2nd October 2026**. Institutions are advised to ensure that **all eligible candidates are registered within the stipulated timelines**, as no further registration will be permitted after the closure of

the portal. Assessment Centres are further advised that registration for **Cycle 03 (Modular Curriculum)** shall only be undertaken for units in **Modules I to VI**. Kindly note that the Council will only administer assessments only for these units.

The Council is also pleased to announce the successful integration of the **TVET CDACC Portal** with the **Edu-Bridge Platform** for the implementation of the **Electronic Portfolio of Evidence (e-Portfolio)**. This innovative solution has been jointly developed by **TVET CDACC** and **ABNO Software International** to support the digital transformation of Competency-Based Assessment.

Through the Edu-Bridge platform, institutions will benefit from a simplified and more efficient assessment registration process. Trainers will define the Units of Competency to be undertaken by trainees, after which trainees will be able to **self-register** for the approved units through the Edu-Bridge platform. These registrations will then be seamlessly synchronized to the TVET CDACC Portal upon approval by the designated institution administrators. This integration is expected to significantly reduce manual data entry, improve data accuracy, minimize registration errors, and enhance operational efficiency, particularly for institutions managing large candidate populations. In preparation for the full implementation of the e-Portfolio, TVET CDACC, in collaboration with **ABNO Software International**, will conduct a comprehensive onboarding and capacity-building programme for Assessment Centres.

Finally, all Assessment Centres are requested to **review and update trainees' profiles** in the TVET CDACC Portal by ensuring that candidate biodata is accurate and complete. Institutions should update each trainee's **mobile phone number and email address**, as these details will be essential for future digital services, communication, learner engagement, and implementation of the Electronic Portfolio of Evidence.

Thank you for your continued support.

Prof. Kisilu M. Kitainge

CEO/COUNCIL SECRETARY
